On June 21, 2007 Emerson & Cuming Microwave Products NV was awarded the environmental charter from the state government of the province of Antwerp, Belgium.

Emerson & Cuming Microwave Products was audited and found to conform on all local environmental legislation during a pre-audit on April 7, 2006 and a final audit on May 30<sup>th</sup>, 2007.

During 2006 – 2007 Emerson & Cuming Microwave Products committed itself to focus on six main environmental issues in order to reduce its overall impact on the local environment. On May 30<sup>th</sup>, 2007 a panel of independent experts in environmental subjects found and confirmed that Emerson & Cuming Microwave Products has well lived up to its commitment by significantly reducing waste and by limiting water and energy consumption.

His Royal Highness Prince Laurent and Governor Camille Paulus of the province of Antwerp awarded this charter to Emerson & Cuming Microwave Products' EHS Manager, Luc Keulemans.

This award shows that Emerson & Cuming Microwave Products is committed to the environment and the welfare of our globe.
